

2010 PROGRAM IN PROSTATE CANCER RESEARCH / SPORE Seminars
5:00-6:00 P.M.

Date	Speaker / Title
January 7, 2010 (Video-Conference)	Peter Nelson, MD , Member, FHCRC / UW "High dose testosterone therapy for castration resistant prostate cancer: Could this really work?"
January 21, 2010	Goutham Narla, MD, PhD , Asst. Professor, Depts. of Genetics / Medicine; Director Physician Scientist Training, Residency Program, Mount Sinai School of Medicine "The role of alternative splicing in the regulation of the KLF6 tumor suppressor gene"
January 28, 2010	Alvin Liu, PhD , Research Associate Professor, Urology, Institute for Stem Cell and Regenerative Medicine, UW "Markers for cancer detection and patient stratification"
February 4, 2010 (Video-Conference televised from UBC)	Amina Zoubeydi, PhD , Assistant Professor, Department of Urologic Sciences, UBC "Hsp27: an important player in different pathways relevant for CRPC" Emma S. (Tomlinson) Guns, PhD , Associate Professor, Department of Urologic Sciences Faculty of Medicine, UBC "Characterization of the exosomal transport of key proteins involved in prostate cancer progression"
February 25, 2010	Jason Bielas, PhD , Assistant Member, PHS, FHCRC "Somatic mitochondrial mutations and prostate cancer"
March 11, 2010 (Live-Streamed)	Eric A. Klein, MD , Chairman, Glickman Urological and Kidney Institute Professor of Surgery, Cleveland Clinic Lerner College of Medicine "Biological characterization of XMRV, a novel retrovirus associated with prostate cancer and chronic fatigue syndrome"
March 18, 2010	May J. Reed, MD , Associate Professor, Dept. of Medicine/Division of Gerontology and Geriatric Medicine, UW "Hyaluronan, collagen, and aging: implications for cancer and wound repair"
April 1, 2010	Beatrice Knudsen, MD, PhD , Associate Member, FHCRC "Mesenchymal-to-epithelial Transition (MET) in Metastatic Prostate Cancer"
April 8, 2010	Stephen Plymate, MD , Professor, Dept. of Medicine/Division of Gerontology and Geriatric Medicine, UW "Androgen environment and androgen receptor pieces: are they related?"
April 22, 2010	John L. Gore, MD , Assistant Professor, Urology, UW School of Medicine "Measuring symptom burden in treated prostate cancer"
May 6, 2010	Stephen Plymate, MD , Professor, Dept. of Medicine/Division of Gerontology and Geriatric Medicine, UW "Are androgen receptor variants relevant to castration resistant disease?"
May 13, 2010	Daniella Bianchi-Frias, PhD , FHCRC " Mouse models for studying age effects on prostate cancer" Cynthia Sprenger, PhD , UW "Alterations in laminin expression modulate prostate cancer cell behavior through changes in integrin and insulin-like growth factor receptor actions"
May 20, 2010 (Live-Streamed)	Anthony D'Amico, MD, PhD , Professor, Department of Radiation Oncology, Harvard Medical School; Chief, Genitourinary Radiation Oncology, Dana Farber Cancer Institute "Evidence based management of localized and locally advanced prostate cancer"

2010 PROGRAM IN PROSTATE CANCER RESEARCH / SPORE Seminars
5:00-6:00 P.M.

June 10, 2010	Paul Lange, MD, UW "Global ruminations and actions about the future of urologic oncology and where do we go from here?"
June 17, 2010	Jay Shendure, MD, PhD, Assistant Professor, Genome Sciences, UW "Exome sequencing in prostate cancer"
July 1, 2010	<i>A double-feature devoted to new data on hormone signaling in prostate cancer:</i> Stephen Plymate, MD , Professor, Dept. of Medicine/Division of Gerontology and Geriatric Medicine, UW "Do we have a xenograft system for determination of IGF-1R antibody resistance?" Elahe Mostaghel, MD, PhD , Assistant Professor, FHCRC "Insights into resistance to androgen deprivation therapy"
July 15, 2010	John Witte, PhD , Professor, Dept. of Epidemiology & Biostatistics, Urology; Associate Director, Institute for Human Genetics, UCSF "Genomics of prostate cancer"
August 19, 2010 (Live-Streamed)	Jennifer Wu, PhD , Research Assistant Professor, UW Medicine/Gerontology "Network of inflammatory cytokine and IGF-1R signaling in prostate tumorigenesis"
August 26, 2010	Colm Morrissey, PhD , Acting Assistant Professor, Department of Urology School of Medicine, University of Washington "The biology and pathology of prostate cancer metastasis"
September 2, 2010	Alvin Y. Liu, PhD , Research Assoc. Professor, Department of Urology, UWSM "Prostate cancer-associated stromal cells" Plus - A few words on the EDRN GU Biomarker Research
September 9, 2010	Stephen Plymate, MD , Professor, Dept. of Medicine/Division of Gerontology and Geriatric Medicine, UW "Tumor environment and androgen receptor splicing"
October 7, 2010	Shiv Srivastava, PhD , Professor and Co-Director, Center for Prostate Disease Research, Department of Surgery Uniformed Services University of the Health Science, Rockville, MD "ERG, a prevalent oncogenic activation in prostate cancer"
October 14, 2010	Cynthia Sprenger, PhD , Senior Fellow, UWMC Thomas Long , Graduate RA, Ratner Lab, Dept. of Bioengineering, UW "How can we use bioscaffolds to study cancer?"
October 21, 2010 (Live-Streamed)	Jennifer Wu, PhD , Research Assistant Professor, UW Medicine/Gerontology "Therapeutic potential of harnessing NKG2D immunity for prostate cancer: lessons from MIC in mouse"
October 28, 2010	James Dean, MD, PhD , FHCRC/UW "Neoadjuvant IMC-A12 combined with androgen deprivation prior to prostatectomy: Outcomes to date and evidence for IGF-1R blockade"
November 4, 2010 (Video-Conference)	Tia Higano, MD , UW/SCCA "Evolving treatment paradigms in the treatment of castration-resistant prostate cancer"
November 18, 2010 (Live-Streamed)	David L. Rimm, MD, PhD , Professor of Pathology, Director of Pathology Tissue Services, Yale University "Biomarker discovery by quantitative and multiplexed analysis of tissue microarrays"

2010 PROGRAM IN PROSTATE CANCER RESEARCH / SPORE Seminars**5:00-6:00 P.M.**

December 16, 2010 (Video-Conference from OHSU)	David Z. Qian, PhD , Assistant Professor of Medicine, Hematology Oncology, OHSU "The role of ID1 in prostate cancer treatment: a mechanism leading to early and personal chemotherapy"
December 9, 2010	William Carter, PhD , Member, Basic Sciences Division, FHCRC "Redirection of normal adhesion and survival mechanisms in prostate cancer"
